

Home Security Inspections

Burglar Alarm System

Here is the list of requirements as set by the Texas Department of Insurance for a possible reduction in homeowner's insurance premiums on alarm systems.

- All exterior structure openings must be contacted. This includes *all* doors and windows.
- The system must have an audible alarm that can be heard inside and outside the house.
- All equipment is U.L. approved.
- The system must be monitored by an outside agency that is U.L. approved.
- Sales, service, installation and monitoring of the system are done in compliance with the Private Investigations & Private Security Agencies Act.
- Motion sensors and/or glass break sensors do not apply to this reduction.

If your house meets these requirements, you could be eligible for a 15% reduction in your homeowner's insurance premiums.

Contact the Crime Prevention Unit of the Amarillo Police Department if you have any questions or to set up an appointment.
